Project Name:	
Type:	

APPLICATION

The CUBE2-NRC offers an easy integration of lighting and acoustic solutions. While the acoustic provides an acoustic solution to the source of noise for optimal sound absorption, seamlessly designed acoustic felt gives design flexibility and personalization for any application. Non-lit can play a significant role in areas that require additional sound absorption. Perfect for places in need to reduce reverberation such as open offices and lobbies, retails, hospitality, reception areas and corridors, and commercial interiors.

FEATURE:

- Non-lit sound absorbing linear direct acoustic.
- Material rated for NRC (Noise Reduction Coefficient) of 0.90.
- Acoustic felt is 100% virgin polyester and 0.5" thick.
- 45 degree deburr design is standard. Flushed design is available upon request.
- Available in 6" to 24" nominal housing heights in 2" increments.
- Wide range of felt color (2 standards and 18 premiums) options available. Refer to the last page for color offering.

MOUNTING:

- Pendant mount.

LISTING:

- ARRA compliant.
- BAA compliant.
- 5 years limited warranty.
